

RESELLERS GUIDE

Unlock efficiency and cost savings in Healthcare with Scanners from Kodak Alaris

In today's fast-paced healthcare environment, the demand for accuracy and enhanced patient experiences is ever-increasing. Scanners Kodak Alaris offer healthcare providers the opportunity to digitise document-based processes, leading to significant cost reductions and streamlined operations. By automating tasks such as patient admissions, medical record management, and back-office operations, these scanners help eliminate manual steps, reduce errors, and improve overall efficiency.

70%

of new patient information is dropped off or filled out as paper during the admission process†.

Scanners for Medical Records

Efficient and secure record keeping is vital, but managing high volumes of paper is challenging. Production scanners from Kodak Alaris help healthcare organisations digitise patient records efficiently, handling various document sizes and qualities with ease. Designed for heavy-duty use, these scanners operate all day, reducing manual effort and minimising costs. Ideal scanners include:

KODAK i4250

Equipped with an integrated flatbed scanner, it handles delicate or bound documents without compromising on image quality.

KODAK i4250
A4 Desktop Scanner

- 110ppm | 500 Sheet ADF
- Intelligent and compact scanning
- Advanced multi-feed sensors
- Metal detection included

ORDER: KOSCS4250

KODAK i5250

Designed for high-volume scanning, it offers exceptional image quality & reliability for large batches of medical records.

KODAK i5250
A3 Production Scanner

- 150ppm | 750 Sheet ADF
- Intuitive and productive
- Built-in Active Feeding System (AFS)
- 20 Quick Scan Jobs

ORDER: KOSCI5250

KODAK i5850

This floor standing model is a major advance in ergonomically friendly production scanning and is designed for continuous use.

KODAK i5850
A3 Production Scanner

- 210ppm | 750 Sheet ADF
- Surepath™ intelligent document feed technology
- Unlimited duty cycle

ORDER: KOSCI5850

Scanners for Admissions

Efficient patient admissions are crucial for a positive patient experience. Scanners Kodak Alaris are designed to handle the diverse documentation needs during the admissions process. Most appropriate models include:

KODAK E1040

A compact and user-friendly scanner ideal for front-office environments, capable of handling various document types with ease.

KODAK E1040
A4 Desktop Scanner

- 40ppm | 80 Sheet ADF
- Reliable and powerful
- Dual Light Illumination (DLI)
- 9 Quick Scan Jobs

ORDER: KOSCE1040

KODAK S2050

Offers rapid scanning speeds and advanced image processing, ensuring quick and accurate digitisation of admission documents.

Scanners for Back Office

Reimbursement complexities and strict documentation requirements can delay payments, impacting healthcare payers such as insurance companies, and patients. Digitising documents like claims, invoices, and eligibility verifications speeds up back-office processes and ensures compliance with government regulations. Kodak Alaris scanners, with a straight-through paper path, handle diverse documents reliably and efficiently. Backed by longstanding relationships with healthcare payers, Kodak Alaris ensures scanned data is processed accurately, reducing costs and processing times while enhancing support for healthcare operations. We recommend the following:

Optimise & save

Optimising the scanning of medical records can significantly save cost and improve patient care.

KODAK S2085f

A compact yet rugged design offers reliable paper handling and a straight-through paper path option can minimise document damage & improves the speed, accuracy, and efficiency of processes.

KODAK S2085f
A4 Department Scanner with Integrated Flatbed

- 85ppm | 300 Sheet ADF
- Tough, high capacity A4 scanning
- Integrated A4 flatbed

ORDER: KOSCS2085f

KODAK S3060f

With a straight-through paper path, adjustable feeders, and a built-in A4 book-edge flatbed for exception documents, you can be ensured smooth and safe document handling.

KODAK S3060f
A3 Department Scanner with Integrated Flatbed

- 60ppm | 300 Sheet ADF
- Intuitive and productive
- Built-in Active Feeding System (AFS)
- 20 Quick Scan Jobs

ORDER: KOSCS3060f

KODAK S3100f

The KODAK S3100f Scanner featuring an integrated A4 flatbed scanner for exception document handling, and its built-in image processing slashes demands on your PCs.

KODAK S3100f
A3 Department Scanner with Integrated Flatbed

- 100ppm | 300 Sheet ADF
- Versatile and robust
- Built-in Active Feeding System (AFS)
- 20 Quick Scan Jobs

ORDER: KOSCS3100f

Take the Complexity Out of Records Management

Drive Efficiency and Cost Reductions

By going digital you're already lowering costs by taking manual steps out of your processes.

Ensure Confidentiality and Improve Compliance

Eliminating paper records mitigates risk and ensures secure data handling and storage. Integration with leading EMRs and certification can help you meet standards and security requirements for the handling and exchange of patient data.

Enhance Patient Care and Satisfaction

Accurate treatment depends on having access to correct patient data. Capture images without error at the highest quality with Kodak Alaris solutions, and avoid wrong action or delayed treatment.
